

Try these titles, too!

Jones & Grover
Facial Rejuvenation Surgery

Consult state-of-the-art, step-by-step visual guidance on the very latest approaches to face lift surgery. Full-color photographs and a complementary DVD of operative video clips detail Dr. Jones's techniques, including his variations on the extended SMAS facelift or lateral SMAS-ectomy, volumetric and short scar facelift, and endoscopic approaches.

2008. 168 pp. 450 illus. (300 in full color). Book and DVD.
978-0-323-04830-9.

Tebbetts
Primary Rhinoplasty, 2nd Edition

Here's everything you need to confidently perform every aspect of primary rhinoplasty—from detailed analysis and operative planning algorithms to technical details of some of the world's most precise rhinoplasty techniques.

"Highly recommended for all plastic surgeons regardless of level of experience."

—*Aesthetic Plastic Surgery*, review of last edition.

2008. 656 pp. 1,200 illus. Book and DVD.
978-0-323-04111-9.

Azizzadeh, Murphy & Johnson
Master Techniques in Facial Rejuvenation

This expansive resource helps you choose the best approach and get the best results for any facial rejuvenation challenge! A highly illustrated color format enables you to easily follow each procedure step by step, and 2 bonus DVDs—included with the text—present demonstrations of today's techniques as performed by leading experts.

2007. 328 pp. 730 illus. (550 in full color). Book and 2 DVDs.
978-1-4160-0146-1.

Park & Toriumi
Asian Facial Cosmetic Surgery

This unique, how-to atlas presents in-depth, detailed, richly illustrated coverage of cosmetic surgical procedures that apply specifically to the Asian patient. Inside you'll find coverage that encompasses the double eyelid operation...augmentation rhinoplasty...aesthetic facial skeletal surgery...and much more. 750 illustrations acutely demonstrate each procedure.

2007. 448 pp. 750 illus. (400 in full color).
978-1-4160-0290-1.

Herndon
Total Burn Care, 3rd Edition

Using an integrated approach, this book, edited by leading authority David N. Herndon, explains how to meet the clinical, physical, psychological, and social needs of every burn patient—and thus achieve optimal recovery and rehabilitation. New chapters on barotrauma and inhalation injury • the tissue bank • the role of exercise • and the use of dermal templates and burn scar resurfacing keep you up to date!

2007. 880 pp. 770 illus. (550 in full color). Soft cover.
978-1-4160-3274-8.
