AND DEVELOPMENT**

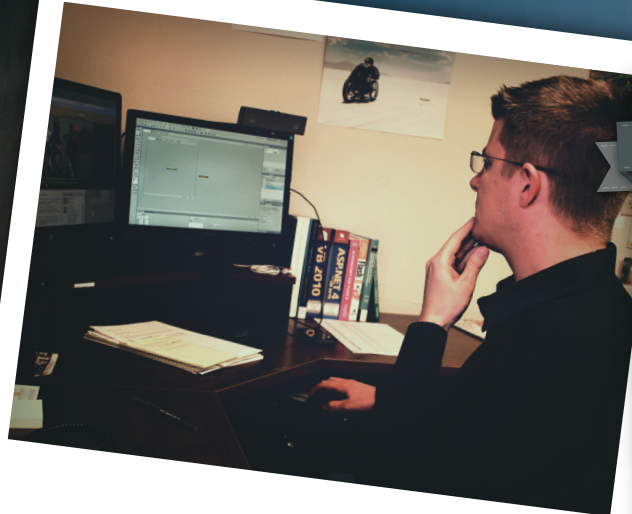

## HOW NAU WILL WORK WITH YOUR BUSINESS

**Your human capital is an investment in your business.** Ensuring they have the right skills and training to help you grow your business is a key to your future success. Also, employees who feel their company takes care of them with education and training opportunities tend to want to work harder and stay with the company longer.

- When you partner with NAU, your employees are eligible for scholarships for undergraduate or graduate courses. This, doubled with your company tuition assistance, provides a real cost savings to your employees.
- NAU will review any employee training and previous education to determine if it will transfer into NAU credits, also saving time and money for degree completion.
- If customized training is what you desire, NAU can work with you to set up the classes you need for the skills you want your employees to gain.
- NAU offers a reduced tuition rate for military and their dependents (with proof of military ID).
- NAU will conduct on-site visits to discuss educational opportunities.
- NAU provides materials to help you promote continuing education to your employees.

### NATIONAL AMERICAN UNIVERSITY

NAU has been serving higher education for over 70 years, focusing primarily on adult learners looking to advance in their careers or find new opportunities. As a comprehensive technical and professional institution of higher learning, NAU responds to the changing needs of students, employers, and their communities by providing undergraduate and graduate programs and continuing education opportunities to serve an evolving global society. With deep roots in business, NAU also provides program offerings in healthcare, criminal justice, information technology, and nursing.
