Juicer

Ten times faster than other juicing systems, this compact 700-watt machine has a 14,000 RPM cyclonic system and a patented 3" feed tube to take on whole fruits and veggies. Micro-mesh filter extracts up to 30% more juice than traditional juicers, and a froth filter in the pitcher ensures you get just the juice.
Breville® Compact Juice Extractor

OUR EXPERT OPINION

7 Top Picks for Countertop

Toaster

Any toaster can toast, but this digital model features an internal smart chip control with nine settings, and a "lift and look" feature that lets you check and adjust toast mid-cycle in 20-second increments. It even has a sensor to toast bagels more on the sliced side.

Breville® SmartToaster 2-Slice Toaster

Hand Mixer

From the stand mixer mavens at KitchenAid,® this heavy-duty nine-speed hand mixer does it all—whipping cream, beating egg whites, mixing brownies and cookies, and kneading bread dough. Integrated sensor adjusts to the resistance of your mix for smooth, consistent results. In addition to two stainless steel beaters, it comes with a pro whisk, two dough hooks, a blending rod that turns the mixer into a hand blender and a cloth storage bag.

KitchenAid® Silver 9-Speed Contour Hand Mixer

Blender

Powerful, precision vortex blending with sharp Sabatier stainless-steel blades brings restaurant quality to the home kitchen. The 60-oz. diamond-shaped carafe for quick, efficient blending and Intelli-Speed electronic sensor motor whip up shakes, smoothies, margaritas, salsa...and a special ice feature can crush a pitcher of ice in seconds. Neat feature: integrated ingredient cup in lid allows you to easily measure and add ingredients.

KitchenAid® 5-Speed Contour Silver Diamond Vortex Blender

Food Processor

Cuisinart's tradition of innovation and peak performance informs the next generation of food processors, elevating this 12-cup workhorse to Elite status. A 4-cup work bowl nests inside the large 12-cup bowl, each with calibrated measurements and pouring spouts.

Cuisinart® 12-Cup Elite Food Processor

Slow Cooker

Fully-programmable 4-qt. multicooker allows you to sear, brown, sauté or steam in tandem with slow-cooking. Cook on high (up to 400 degrees), low, simmer or warm (up to 24 hours), or steam foods up to 90 minutes. Just pop in the recipe, set the touchpad control with blue backlit LCD display to the desired time and temp, go to work, and return to a hot one-pot meal thanks to the automatic keep-warm setting. Removable nonstick aluminum pot with cool-touch handles has a glass lid for a clear view.

Cuisinart® 4-qt. 3-in-1 Multicooker

Countertop Oven

Just like the bigger version by Breville,® this space-saving, high-powered oven "thinks" with a unique Element IQ feature that delivers the right power at the right time, adjustable to your preferences. Eight pre-set programs include toast, bagels, bake, roast, broil, pizza, cookies and reheat. Great for warming entrées and quick mid-week meals or as that second oven you need for entertaining and holidays. P.S. You'll love the nonstick interior.
