

Cutlery

The first set of knives you choose from Crate and Barrel should be your last. What's the best knife? It's the one that immediately feels like it was made for your hand. Which is why we offer a range of only the "best," and why we encourage you to pick them up and try them out.

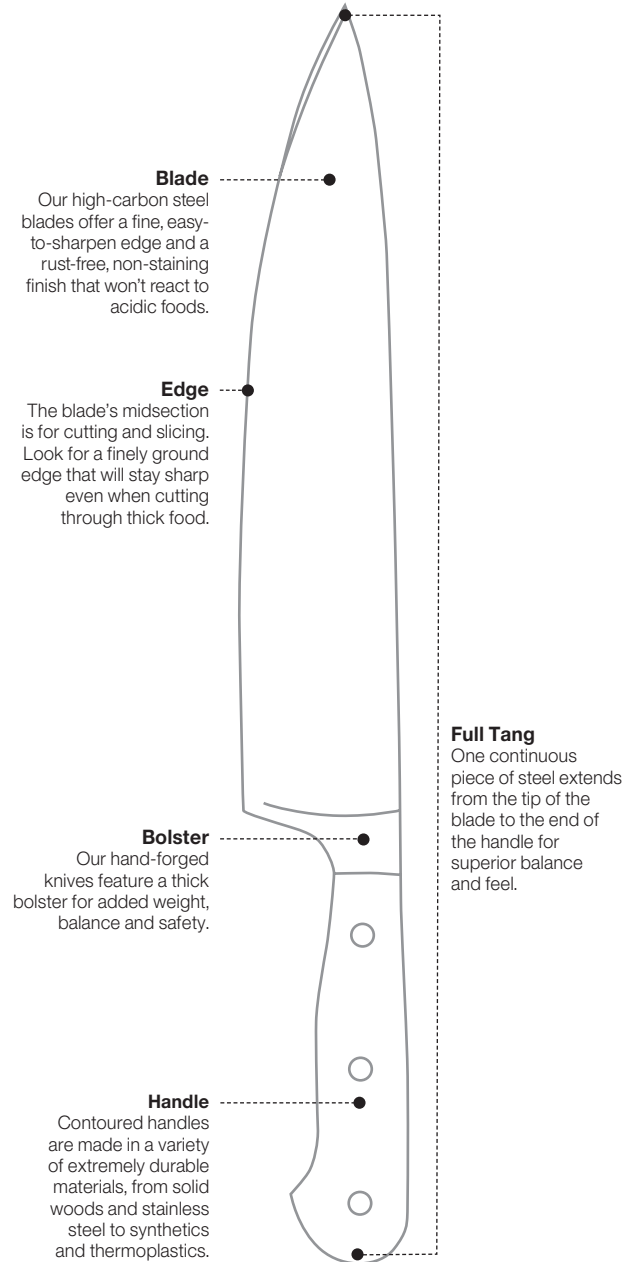

Hand-Forged Knives

Cutlery forged by hand is top-of-the-line in quality. Made from a solid piece of steel, these knives are heated, tempered, sharpened and finished almost entirely by hand. A forged knife typically has a bolster, which is a raised area between the handle and blade that enhances strength, stability and comfort in your hand.

Stamped Knives

A stamped knife is cut from a continuous piece of steel. Its blade is machine tempered, sharpened and finished, then fit into the handle and attached with rivets. Stamped cutlery is typically lighter than forged.

The Cutting Edge

Wüsthof® Gourmet

- Crafted in Solingen, Germany, the knife-producing capital of the world
- Blades are laser-cut and stamped of high-carbon, stain-free steel with a 14-degree edge angle
- Full-tang construction on blades 4.5" and longer
- High-impact, triple-riveted synthetic handles
- Easy to sharpen
- Hand wash

Kyocera®

- From Japan's original manufacturer of advanced ceramic knives
- Blades are made of Zirconia 206, a proprietary lightweight ceramic that keeps its razor-edge 10 times longer than other cutlery
- Rust-resistant ceramic blades are impervious to acids and oils, and prevent browning of foods
- Ergonomic plastic handles have a comfortable, well-balanced grip
- Hand wash
