The Corvette Sting Ray (later spelled as one word “Stingray”) has an intriguing connection with Chevrolet Corvettes. The 1965 Corvette Sting Ray featured disc brakes on all four wheels for the first time and a “big block,” 6.5 L (396 c.i.) V-8 engine. In 1965, drivers could also purchase Rochester fuel injection for the 425 hp (V8) and for the 327 c.i. engine. In 1967, Chevrolet unintentionally created one of the most collectible Corvettes ever by putting an L-88 version of their 427 c.i., 560 horsepower (V8) in 20 production Corvette Sting Rays.
