

# SUCCESS

NOT A MATTER OF *if* BUT *when*

## Excelling from Move-In Day to Graduation Day

The entire Emmanuel community is committed to working directly with you to discover, fulfill and transcend your personal and academic goals—from the Orientation staff who help you transition into life as a college student and the academic advisors who assist you in crafting your success plan to the student activities, residence life, mission and ministry and counseling staffs who guide your social and spiritual growth. From the first day you set foot on campus, you can also benefit from the College's robust and exceptional career services. Our experienced Career Center advisors will come to know you as a unique individual, recognizing your strengths and their internship searches and career preparation—support that will carry you through walking across the Commencement stage.

## Excelling On (and Off) The Field

As an Emmanuel College Saint—whether you strive to be a varsity lacrosse player or an intramural dodgeball champion—you'll learn that "going all in" sometimes means "going all out." Our student-athletes compete with focus and enthusiasm, and the College community comes together to cheer them on. Our 16 Division III varsity teams post strong conference play and compete in big championships, all while excelling academically and developing abilities that reflect our core values, including teamwork, responsibility and respect for others. Through our affiliation with the Colleges of the Fenway (COF), students also have the opportunity to participate more than 20 intramural and club sports. You're virtually guaranteed to find a team to suit your interest and skill level.

## Excelling on a Global Scale

Expand your education across international borders. Emmanuel students learn and act with respect for a global context, from the in-depth study of topics such as geopolitics, economics, world religion and international relations embedded into our curriculum to faculty-led travel courses and dozens of opportunities to study abroad in more than 70 countries. Whether you are pursuing a language, a major or a dream, the more you know about the wider world, the more likely you are to succeed within it.

In the past six years, Emmanuel students have been awarded prestigious Fulbright Fellowships to study and teach in Morocco, Andorra, Latvia, Indonesia, Ireland, London, Greece, Macau and Thailand.

## Excelling After Emmanuel

Emmanuel's position at the crossroads of intellectual exuberance and world-class opportunity means success is not a matter of "if," but "when," and even the most ambitious goals are not only met, but exceeded.

An Emmanuel College education has never been more valuable. Liberal arts and sciences graduates are able to pursue countless meaningful careers over the course of their lifetimes, in many different areas, because the core skills honed—critical thinking, effective communication and problem solving, among others—are, in many professions, as critical as the training provided by an undergraduate major.

Here, your education will enable you to tackle complex questions and view multidimensional issues in a larger context, allowing you to offer and implement solutions rather than simply support an argument. Our core curriculum begins by developing habits of the mind, guided by a strong Catholic intellectual tradition. Then, by adding valuable real-world internships, research and service-learning in the dynamic city of Boston, you are in a position to win prestigious fellowships, gain admission to distinguished graduate programs, and embark on a rewarding career.

The proof is in our graduates, who can be found making their mark at leading companies and organizations all over the city of Boston, across the country and around the globe.
