BEACH PEBBLE SUPPLY IN HIALEAH, FLORIDA

You can't take the beach home with you, outside of owning a beachfront home. At least, maybe not the crashing surf or the warm sand. But with beach pebbles from our supply in Hialeah, FL, you can at least add to practically any landscaping project with beautiful stones smoothed by the ocean waves. Beach pebble is a fantastic filler stone with lots of natural colors and a low upkeep. Let YardCo show you how to make the most of this offering from the sea.

How Beach Pebble Compliments Any Other Stone

Beach pebble is a catch-all addition to any project. The stones are small and fairly uniform, so they're best used as ground covering. As an alternative to wood mulch, they do a great job keeping moisture within the soil, which is especially important in water-scarce areas. Use them for flower beds and planters. And as always, they're a handy stone for bordering off sections and circling trees.

The kind of smooth ground covering that beach pebble offers doesn't just extend to plants. They make great walkways on their own, or can fill space in existing walkways by wedging them between gaps of flat stone. This results in a much more solid-looking path. Beach pebble is also useful for creating driveways, complimenting decks and patios, and adding to ponds and fountains. Plus, like other natural stones, it's low-maintenance. All it needs every so often is a rinse, and nature takes care of the rest. It's the ideal filler stone.

Why YardCo is the Premier Beach Pebble Choice

YardCo's beach pebble supply in Hialeah, FL, has a huge variety of beach pebble sizes and colors for your unique property. We'll not only help you select the best beach pebble for your location, but we'll also assist in planning out your project, shipping the materials, and even installation. At any stage of the project, YardCo delivers. Call us at [561-433-4148](tel:561-433-4148) or send us an email.
