MOTION PICTURES

media &
entertainment
in West Bengal

The history of cinema in Bengal dates back to the 1890s, when the first "Bioscopes" were shown in theater in Kolkata.

Bengali cinema has never seen such a flood of releases within one year as it did in 2008.

The year marks a record for new talent, new directors, young producers, a new off-beat films, a few films for children, an animation film and films in languages other than Bengali but having a distinct Bengali Atmosphere.

The market for Bengali films has expanded to a 340 - million - strong Bengali audience in Bangladesh, West Bengal, Tripura and Assam. The Industry could truly flourish if films from this stage have a proper distribution network.

RP Uni Motion Picture Pvt. Ltd. is a Media and Entertainment company headquartered in Kolkata, West Bengal. Apart from producing and distributing Bengali films we are going to distribute films in other languages all over eastern India.

Dear All

Welcome to all at RP UNI INDIA GROUP.

I am really happy to be with all of you today. On behalf of RP UNI INDIA GROUP I am very proud of all associates, vendors, customers. I really appreciate the effort made by each staff on our way to success.

We started the journey in the year 2009, with an excellent back story. We all know that dreaming is our fundamental right and the starting point of all changes. Realizing a dream is most difficult but is equally the most important part of dreaming. This is when the dream confronts reality and it either changes reality or perish. Luckily when the dream is as board as a national one, it never perishes. Today I am trying to present my qualitative assessment of where we are on realization of this dream and what are some of the issues that we need to address.

Our basic business segment is IT sector. Our design is based on rigorous research, unique project development and social initiative which has been readily accepted by users, in an attempt to best serve our users. Our projects are constantly invented, evaluated and upgraded. 25 uncompromising years of hard work and strong growth have brought us to a stage where we can boast of our projects. So no matter where we are, we find a way to get people. We promise that you will be delighted with the service you receive.

Our values of respect, rigor and involvement remain consistent. These values are embraced by our people and have played a major role in our success so far. These values will continue to go forward. I hope RP UNI INDIA GROUP will become such a place where people will join in order to realize greater achievements.

Thanking You

Manish Roy

Internet access in India is largely provided by the private sector and is available in a variety of forms, using a variety of the technologies, at a wide range of speed and costs.

The country has the world's fourth largest Internet users with over 121 million users (of whom 59% who only access the internet via mobile device) as of December 2011. However, the Internet penetration in India is one of the lowest in the world and only accounts for 8.4% of the population compared to OECD countries where average penetration rate is over 50% The number of Broadband Internet Subscribers in India has started to become more significant, having more than doubled in the two-years period to end 2009. The 3G auction was followed by an equally high profile auction of 4G spectrum that set the since for a competitive and invigorated wireless broadband market.

RP Uni Net Broadband Services has continued to dominate the market over 5000 plus tower in many parts of West Bengal.

Over 600 plus towers in Eastern & North Eastern Region of India (Odisha, Chhattisgarh, Assam, Tripura & Meghalaya) Uninet aims to roll out its broadband internet services with the following key capabilities.

1. High speed Internet with symmetric speed of up to 8 - 10 mbps.
2. Leveraging our exiting presence among subscribers through coaxial cable.
