CHANEL Introduces the new J12-365 Watch

How many moments make up 365 days? The J12 watch assumes a sophisticated and feminine new look. Its very name is evocative: **J12-365**. Designed to keep pace with the hectic lifestyle of the modern woman, the J12-365 watch can be worn every day of the year, for any occasion. Available in black or white high-tech ceramic, the timepiece presents a sleeker silhouette and a delicately fashioned bezel, available in a new shade of 18 carat beige gold, develop exclusively for Chanel.

Simple and refined, classic yet contemporary, this timepiece offers the ultimate accessory for every woman, 365 days of the year.

Discover the new collection at **CHANEL Highland Park Village** or on chanel.com.

Hermès Boutique Expansion

While many of you are summering elsewhere, Highland Park Village will be overseeing a construction project to expand the **Hermès** boutique. Hermès first opened in Highland Park Village in 1985 and is expanding its store to include a second story showroom to promote their exquisite furniture and housewares. From mid-June to February 2015, construction will be visible in a secure area in front of the boutique and in the alley behind it. Our management team will work closely with the contractors to ensure safety and smooth traffic flow for our tenants and guests. Please visit our Highland Park Village Facebook page for construction updates.
