The Spa at Rosewood Tucker's Point
Bermuda

For more than 20 years, Rosewood Hotels & Resorts® has been rejuvenating guests in one-of-a-kind style at its spa destinations throughout its international collection of ultra-luxury hotels and resorts. In 2008, Rosewood debuted its own spa brand, Sense®, which was developed based around four key driving principles:

A Sense of Tradition. Rosewood's wealth of experience and commitment to nurturing personal well-being are at the heart of Sense spas.

A Sense of Place®. Designed to enhance every aspect of a guest's experience by reflecting the local environment, each Sense spa is bestowed with one-of-a-kind ambience, style and attention to detail. A Sense spa is an exceptionally unique sanctuary - instantly welcoming and individual in character with treatments and services that honor local traditions in healing and incorporate indigenous natural elements.

A Sense of Balance. Sense spas deliver services that are dedicated to stimulating the fine balance between life, nature and spirit by integrating spiritual well-being and serenity into the traditional spa experience. The ultimate place to improve harmony in one's world, a Sense spa embraces, nurtures and enhances balance by offering restorative environs, thoughtful amenities and unmatched treatments.

A Sense of Individuality. Sense spas take a personalized approach, customizing encounters to one's individual needs. A visit to a Sense spa is a personal journey tailored to achieve ultimate results.

Over the years, Rosewood's entire collection of spas has garnered an impressive number of accolades and awards from prominent spa and travel publications. **Take a Sense spa journey of your own to experience why.**
