BATTLE. BELIEVE. BREAK THROUGH.

The Celebration of Heroes, Heart and Hope is an event like no other that showcases the transformational power of sports. Gain strength and motivation from amazing stories of trailblazing challenged athletes who battle tirelessly to break through barriers and set new standards of excellence. Celebrate their achievements with celebrities, professional athletes and others who believe the only limits are those we place on ourselves.

HONORING THE HEROES OF

On April 15 our nation's strength and resilience were tested when one of the world's most renowned athletic events was reduced to what many say looked like a battlefield. Without falter or hesitation, many first responders, runners and bystanders took charge to save the lives of those injured. These men and women became true heroes at the 2013 Boston Marathon and the Challenged Athletes Foundation honors them for their selfless acts of heart and hope.

FEATURED ATHLETES

A Celebration of Heroes, Heart and Hope will introduce you to challenged athletes who believe anything is possible and defy perceptions to prove to themselves – and the world – that they are champions.

Meet U.S. Paralympic Sports Woman of the Year and double amputee Jessica Long, whose epic journey to Paralympic gold started at a Siberian orphanage; Breezy Bochenek, an 11-year-old cancer survivor and amputee whose strength will leave you breathless; and, Daniel Riley, a retired Marine Cpl. whose resilience in the wake of an IED explosion is nothing short of remarkable.
