

User's input/observations

- “Cell phone screens are too small”
- “How do I know something has happened if there are no buttons?”
- “Switching between tv and other devices is hard”
- “Buttons on tv remotes are too hard to read”
- “Sometimes I click more than one button on both touch screens and regular remotes”
- “The remote only works when I point it directly at the reciever”
- **Based on interview questions**
