

# Save Water.

   **Value Every Drop.** 

- Save water, turn off water tap when not in use
- Reduce shower time (Do you know that 1 minute less shower time, means 10 liters of water saved?)
- Practice the principle of “Multiply water usage,” save water
- Repair any leaks promptly to stop wasting water
- Wash clothes in big batches to reduce laundry times; hand-wash small or few pieces of clothes

**Cleaner  
Production**

Save Energy, Reduce Consumption, Reduce Wastes, Increase Efficiency
