

# Objective

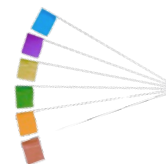

The project objective was to design a mobile workstation for a specific profession and focus on building a high fidelity prototype

Design a portable work station for an archaeological excavator that houses his/her tools to be brought to the dig site.

# Opportunity

The common tool rolls/bags are bulky, have to be carried separately from personal bookbag and have limited space for personal items.

## Personal Items

Water  
Food/Snacks  
Kneeling Pad  
Gloves

## Common Tools

Trowels  
Tool Picks  
Flagpins  
Brushes  
Dustpan  
Clipboard  
Notebooks  
Pens/Pencils  
Rulers  
Laptop
