

TREND 2016

Solid Color Reactive Glaze

Reactive Glaze

The images in this pack are for inspiration only. They are purely to illustrate a technique, style or shape and no colors or adaptations should be commissioned.

BLUSHING MARSALA

Timeless whispers, ineffable though collectively understood. Deep, red, dramatic human truths expressed through shades of beet, marsala, and light rose. Ancient Damask patterns are transformed into expressions of luxury as seamlessly as they are transposed back into organic through gloss and matte finishes.

Solid Color Raw Bisque

Transparent Glaze on Terracota

The images in this pack are for inspiration only. They are purely to illustrate a technique, style or shape and no copies or adaptations should be commissioned.

URBAN ORGANIC

Naked, pale agrarian textures provoke dark and industrial metallics. Leather and rawhide stretched against glass tell of a wild core; of stoked embers just below the surface. Urban vitality with roots firmly entrenched in rich soil.

Pressed Glass

ENCHANTED ROMANCE

Unexpected effervescence and a flirtatious elegance collide in these color combinations of plum, pistachio, and hazelnut. Mystical, playful, and anthropomorphic themes breathe life into receptacles that whisper promises of adventure ahead.

COLOR CONTRAST

More than just a "pop of color," seemingly intentional, jarring color combinations that both delight and surprise. Patterns are ablaze yet stark in their unwillingness to be overlooked. Irreverent and bright; reds, pinks, blues, and greens are tempered only by their white brims.

Reactive Glaze

OCEAN BLUE

Arresting shades of cerulean, hunter green, and lavender jump out against rustic metallic accents- exotic in its own right- rife with an almost Zen like quiet. Cool, crisp, and calming intermingle with light and feathery which culminate in an unrivaled tranquility.
