

At **Resilient Mental Health (RMH)**, we specialize in providing geriatric psychiatry service when and where it is most needed. Our team delivers superior service and enhanced personal care while reducing the potential liability of care facilities. RMH is fully invested in nursing home and ACLF care. It's what we do — with no competing interests.

Our practice is patient-centered, accessible and team-oriented. Each patient receives a thorough initial evaluation by a board certified psychiatrist. In-person consultations are complemented by 24/7 phone access to doctors and staff.

We recognize the important role that families play in patient care. When possible — *and when acceptable to the patient* — our staff will include at least one family member in the initial evaluation. Family consultation is also available when appropriate.

To help ensure optimal care, RMH participates in monthly medication reduction review conferences which are subsequently documented to the patient's medical record. Nurse practitioners are also engaged to maximize availability and for routine follow-up services to maximize efficiency.

## OUR PRINCIPLES

*Meet our team of experts here to serve you*

### **Gary Colfax Hankins, MD** | Founder

Dr. Hankins is Board Certified in Psychiatry and a noted consultant in the area of Geriatric Psychiatry. He holds a Masters Degree in Health Services Administration and has over 25 years experience in the private practice of psychiatry. Dr Hankins currently serves as psychiatric consultant to Gainesville Health Care Center, a 180 bed nursing home facility.

### **Robert David Maresh, MD** | Associate

Dr. Maresh is Board Certified in Psychiatry and has 20 years experience in the private practice of psychiatry. He has recently relocated to the Jacksonville area to reopen his practice in geriatric psychiatry.

### **Michael Allan Coulter, ARNP** | Associate

Michael Coulter has Psychiatric clinic experience in private practice and holds a Masters of Science in Nursing. He serves as an Adjunct Professor at Jacksonville University teaching psychiatry to graduate nurse practitioner students. Coulter has extensive experience in providing comprehensive psychiatric care to nursing home residents in the Jacksonville community.

## OUR PATIENTS & CLIENTS

*Quality care makes a difference*

“Dr. Hankins was often the only person I could get a hold of and the only one to help me make sense of what was happening to my brother.”

— brother of a Gainesville, FL nursing home patient with presenile dementia

## PATIENT REFERRALS

*We are here for you*

For routine referrals please fax your consultation request to **904.497.4400**.
