

turn to the experts 

When sliced bread was invented in 1912, it was the greatest thing to happen since air conditioning. You see, our founder, Willis Carrier, invented the first modern air conditioning system in 1902 and we haven't stopped inventing new ways to keep you comfortable ever since.

### FURNACE

Efficient, quiet, flexible and durable, these furnaces live up to their Performance name every day—no matter where you live. Two-stage burners and energy efficient fans make these a step up from the standard.

### AIR CONDITIONERS

Presenting a reliable, energy efficient and quiet way to cool your space—no matter how much space you have. In addition to a traditional air conditioner, our Performance series line includes a compact unit for tighter installations.

Performance SERIES

### FURNACE

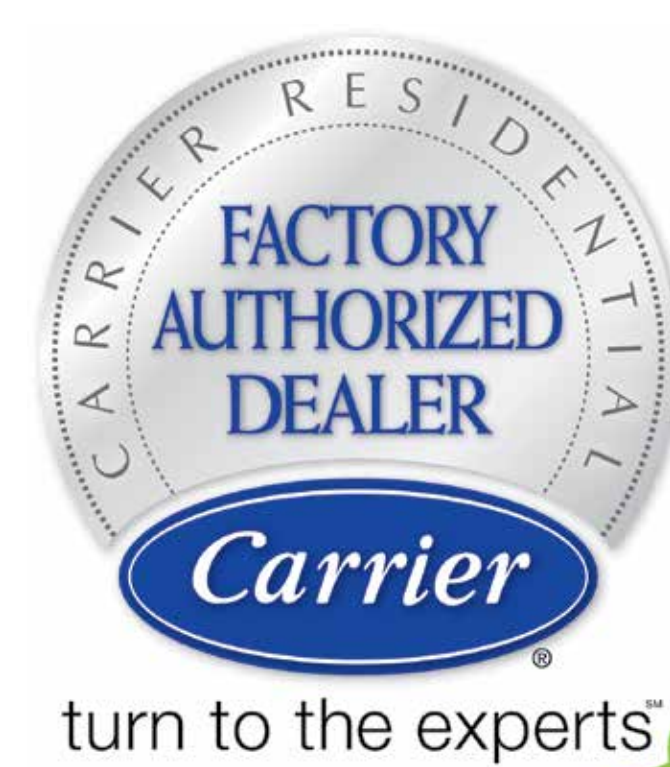

If efficiency is a hot button for you but budget is your primary concern, consider our Comfort 90+% AFUE gas furnaces.

### AIR CONDITIONERS

Looking for the most economical way to improve the reliability and efficiency of your central air conditioning system? Turn to our Comfort series. With impressive SEER efficiency ratings ranging up to 16, they're likely to cut your utility bills.
