CUSTOMER *Testimonials*

1 Mason S. 2 months ago -

"They were able to quickly diagnose the problem with my furnace and got a new one installed within a day. Everyone I dealt with was friendly, professional and clearly experienced. There was no pressure to buy the most expensive model and they even took care of all the warranty/rebate forms. I'd recommend them to anyone!"

2 David C. 10 months ago -

"I almost never write reviews, but Kenosha H&C are a great company to do business with and I felt compelled to write this up. They have serviced my home several times over the years and always do great work. What makes the special are the people that work for them. Twice I've been in a situation where my AC was down and I was convinced that I needed a new central AC unit in my house. Twice I was surprised to find that it was an easy, inexpensive fix. Either of these times they could have taken advantage and sold me a new unit, but they took the time to understand the situation vs just following the \$\$\$. For this reason, I'll be a customer for life."

3 Kari P. 4 months ago -

"The service today was fantastic! Alex was very knowledgeable and helpful. So appreciate the professionalism and integrity, which is sadly hard to come by. Many thanks."

4 Terry T. Thomas Interests Inc - General Contractor

"We have been doing business with Kenosha Heating & Cooling for the past 5 years. We have found that their team is responsive and reliable. There technicians care about their quality of work and understand the ebbs and flows of timing on a jobsite. Their best quality however is their integrity, they are honest and forthright. I would recommend Kenosha Heating & Cooling for any of your projects that require professionalism, honesty and integrity."
