

INDOOR AIR QUALITY

Breathe Easy. Improving Your Indoor Air Just Got Easier.

Ask about CARRIER SMART HOME

Carrier Performance SERIES
turn to the experts

If clean air matters to you, this **Air Purifier** may be just what you're looking for. It uses Captures & Kills™ technology to continuously filter out pollutants, allergens and pathogens in your home, to leave you with cleaner, healthier air.

Carrier Performance SERIES
turn to the experts

These **whole-house humidifiers** simply use the blower motor of your furnace to drive moisture vapor into your home's ductwork.

Aprilaire
Feel Good. Inside.™
The Aprilaire **Dehumidifier** is a high-capacity solution that helps you achieve total comfort through humidity control.

RenewAire
Energy Recovery Ventilation
The Natural Choice for Fresher Air

This RenewAire is a passive plate type **Energy Recovery Ventilator (ERV)** that moderates extremes of temperature and humidity year round.

Second Wind
AIR PURIFIER

Second Wind Air Purifiers use **ultraviolet germicidal light** at a frequency of 254 nanometers to disinfect biological growth in return or supply air stream. The Second Wind 2000 Series is equipped with High Output Lamps and Custom-matched ballasts for High Intensity UVC light.
