

# RE-ELECT ROBERT W. (BOB) NEWELL

## ***Why am I running for Gibson County Juvenile Judge?***

When I was elected in 1998, I had a vision for the Gibson County Juvenile Court. Great strides have been made toward achieving the goals I set. Now with our new location and improved facilities, the remainder of my vision is attainable. I would like the opportunity to complete these goals to help ensure a better future for our children.

### ***My Qualifications to be your Juvenile Court Judge:***

My personal life experiences, education, training, and extensive work with children have given me a good foundation to understand the problems our youth are faced with today. My background as a teacher, coach, school administrator, school board member, county commissioner, attorney, and Juvenile Judge makes me uniquely qualified for this position. Most importantly, keeping the promises made to the citizens of Gibson County since 1998 is the best qualification.

## ***Two Short Term Goals:***

- To develop a better foster care program on a local level so that the children who have done nothing wrong can remain in Gibson County.
- To redevelop an intensive probation program that was formerly funded by the state.

## ***Primary Purpose of Juvenile Court***

To protect the citizens of Gibson County, look after the best interests and welfare of children, and uphold the dignity of the law. To accomplish this, we have established a good working relationship with school officials and law enforcement agencies.

Juvenile Court is the hub of the most disturbing social problems of our communities and is unlike any other court in Gibson County. It is my desire to continue to serve as your Juvenile Judge as I try to help troubled youth become productive members of society through decisive, consistent leadership.

I respectfully request your vote - one more time - on August 7th
