### **Cybersecurity 101:**

#### **Understanding the Fundamentals of Cybersecurity & Data Breach Concerns**

Any Internet-connected business can fall prey to a disruptive network intrusion or costly data breach. A quick, effective response is critical to minimizing damage and expediting recovery. The ultimate time to plan for a response to such an attack is before an incident occurs!

Join us for a seminar on the fundamentals of cybersecurity and the importance of planning for an eventual data breach.

#### **The seminar will cover:**

- Five critical areas you need to examine –  
Hint: two don't even relate to your technology!
- The single most important thing you can do before a breach occurs
- Vital information needed for an incident response plan
- Steps to prevent a breach
- ...and much more!

**When:** Tuesday, May 3, 2016 | 7:30am- 9:00am

**Where:** Lewis Rice LLC  
1010 Walnut, Suite 500, Kansas City, MO 64106  
\*coffee & continental breakfast
