

# Paint it Floral

Paint it Floral is a brand of throw pillows exclusively designed by Lauren West. The base for each of the pillows has a central theme – floral. There are many different designs and ways in which the central floral print is utilized and these different designs can be seen on each of the separate pillows in the line.

The line is mainly inspired by the recent upward trend in both girly and in vintage inspired looks – both of which are perfectly encapsulated by this floral theme.

The goal of the company is to provide affordable, but stylish pillows for a modern generation who is looking to keep in touch with a slight vintage feel.
