Look Inside SJK Wealth Management

When you leave a job you have the option to roll over your 401(k) plan, meaning you can "roll" it into a new plan. A plan that gives you unlimited choices and new ways to leverage your savings.

What you don't realize is that leaving your 401(k) "as is" means leaving choices about your plan in the hands of their former employer. If you're no longer with that company, why let them be in charge of decisions about your 401(k)?

If you have a 401(k) and you've left your job, or have not yet consolidated your plan, your money may not be working for you the way it could be.

At SJK Wealth Management we have decades of experience helping clients assess their 401(k) rollover options and make well-advised decisions about their plans. If you've been wondering if rollover is right for you, give us a call today.

It's time we talk rollover.
