

**QUALITY CARE OPTIONS**  
LEADERS YOU CAN TRUST

# Find Your Perfect Match in Qualified Health Care Staff

Every day your patients rely on your health care staff and so do you. Trust is important, and you need to know that the people who work for you are fully-credentialed and qualified to perform their duties and deliver quality care to the patients you serve.

But what happens when one of your employees goes on maternity leave, or three people call in sick with the flu? When you need professional health care staff long-term or on short notice, look to Quality Care Options.

Here are just a few of the reasons why we're different:

## 1. Complete Credential Guarantee

Quality Care Options utilizes the industry's most rigorous and extensive credentialing process to provide our clients with superior health care professionals. Our standards meet the criteria set forth by the Joint Commission on Accreditation of Healthcare Organizations for Health Care Staffing Services. With over 50 mandatory credentials, annual reviews, ongoing competency training, professional education programs, comprehensive background checks and more, Quality Care Options guarantees 100% of its staff is 100% credentialed at all times!

## 2. StatCare™ Priority Placement Service

Your employees sometimes call out on short notice – often just as a shift is about to change. Even nurses get sick, after all. Or maybe you need additional staff on hand to manage an emergency situation. Whatever the case may be, we understand your staffing needs can't always be planned for in advance. When it comes to providing the necessary care, you can't afford to wait and, more importantly, neither can your patients. With Quality Care Options' StatCare™ Priority Placement Service, we guarantee placement of qualified health care professionals for your facility within 59 minutes of your request or we'll take 25% off next comparable shift.

## 3. CareMatch™ Health Care Professional Matching System

At Quality Care Options, we know that every client has different needs. We also recognize the individuality, diversity and personal preferences of our candidates when it comes to placement. That's why we offer clients and candidates alike our exclusive CareMatch™ Health Care Professional Matching System. By identifying the preferences and requirements of our clients and candidates in advance, we foster strong working relationships that are a perfect fit for everyone involved.

### ABOUT US:

Quality Care Options is a healthcare staffing agency that provides the most qualified and credentialed healthcare professionals for both immediate placement and temporary or long-term employment. After subjecting our candidates to a very rigorous credentialing process, they are put into our database where they are made available for placement no matter how short the notice. We're so confident of the quality of candidates that we place for our clients that offer the QCO Satisfaction Guarantee. But we don't stop there, we follow up with a short survey to ensure your future satisfaction.
