

Why Choose Christo IT?

You have a lot of choices when it comes to finding the right IT provider for your business. Maybe you need a firm that can handle your IT departmental overflow. Maybe you need a consultant who will answer each call with clear solutions to every problem. Maybe you're looking for IT services that will fix your recurring issues once and for all without extensive service charges. Or maybe you need an IT service provider who does all of this and more. If that's the case, then you need Christo IT.

The Christo IT team of Trusted Engineers™ has the training and expertise to provide your company with unparalleled peace of mind. Here at Christo IT, we make sure your network and systems are always running, so you can focus on running your business. Here's how:

5 Layers of Backup™

Christo IT constantly monitors your system, implementing preventative measures to ensure functionality. We backup your system every one to two hours so if any issue arises, you'll never have to worry about losing even a single day's work. If your server does go down, we provide Five Layers of Backup™, ensuring that your business never has to take a break for repairs or maintenance.

ChristoGuard™

With ChristoGuard™, we help to ensure that your system is up 99.9% of the time. Our Trusted Engineers™ review your account on an ongoing basis and provide the experience necessary to identify any issues that may surface. When a potential issue is identified, we provide proactive recommendations to prevent repeat occurrences.

System Optimizer™

Imagine having a dedicated technician whose only job is to inspect your system day and night, constantly making adjustments to ensure it always runs at peak performance. The Christo IT SystemOptimizer™ puts your system through 42 checkpoints on an ongoing basis, ensuring that security threats are removed and your system is always operating at optimum efficiency. SystemOptimizer™ also keeps an eye on your hardware, immediately identifying possible hardware that may cause your system to run slowly, making replacement recommendations on a real-time basis.

"From setting up office software systems, to troubleshooting computer glitches, Christo IT does it all with proficiency and professionalism. We always feel as if our business is in excellent hands and we highly recommend them."

–Julie Kemp, CFP

Software Easy Update™

Christo IT's Software Easy Update™ service provides you with immediate system update recommendations when new versions of software become available. We also provide training for you and your employees if you need to upgrade to a new version. Christo IT maintains strong working relationships with training partners who specialize in a wide range of applications. Whatever your software training needs, we can provide you with an expert resource.

WorkSmart™

Christo IT works hand-in-hand with you or your internal IT person to provide seamless support and state-of-the-art tools that increase and maintain system efficiency. With WorkSmart™, our Trusted Engineers™ are constantly researching and reviewing options for reducing downtime and configuring your systems to maximize productivity.

IT Value Reports

As a Complete Care™ customer, you'll receive IT Value Reports each month, providing you with a summary of your current IT status, statistics and accomplishments. If you need access to this information in between reports, you can log into your MyChristo™ Portal for 24/7 instant access to these statistics at any time.

EasySwitch™

Our EasySwitch™ program enables us to quickly and easily transfer data from your old computer or server (even if it's non-functioning) to a new system. With Complete Care™, Christo IT creates detailed individual profiles for all users so if your computer ever goes down, we provide you with a loaner, ensuring that you or your employees can get back to work quickly while we set up your new computer exactly as you had it before. We'll even remove your old systems and make sure they are properly recycled.

"Since appointing Christo IT as our technology partner, our company, which has remote offices throughout the country and a local main office, has had virtually zero service-related issues. Our main office systems have never run better and, due to this, our productivity is up and our internal costs to manage the systems have been significantly reduced."

–Kurt Forsman, Derema Group
