Purpose-Built to Achieve Specific Instructional Goals

Quality professional development can make a measurable difference in the success of your digital instruction implementation. Compass Learning offers professional development that is purpose-built to meet your needs for intervention, blended learning, high school, and project based learning.

“This PD opened my eyes to all of the great support that Compass Learning® could provide to my students. I’m really excited to see the sort of growth my students can have using this program in a more productive way.”

“Every Compass Learning® professional development session that I have attended in the past 5+ years has been helpful and effective.”
Purpose-Built Professional Development

Compass Learning® delivers purpose-built professional development to optimize your intervention, blending learning, high school, or project based learning implementation. Our targeted, flexible PD goes beyond product training to include implementation strategies, research-based instructional practices, live coaching, and virtual hot topics and refreshers.

FastStart
Quickly get teachers up and running with Compass Learning software and provide the product knowledge for subsequent professional development.

FastStart prepares teachers for day-one usage and includes:
• Goal setting
• System set up
• Onsite or online implementation training

Professional Development Essentials

The Essentials “Initiate Implementation” Offering | 1-day
This session focuses on laying the groundwork for integrating Compass Learning software solutions with best classroom practices.

The Essentials “Build Momentum” Offering | 2-day
Sessions focus on helping teachers begin building a quality implementation of the program. Topics include classroom-focused implementation strategies along with monitoring and motivating students.

The Essentials “Accelerate Success” Offering | 3-day
Sessions focus on helping each school or district maximize its investment by ensuring teachers understand how to use the program efficiently and with fidelity. It includes strategies for immediate use in the classroom, job-embedded instructional coaching, and how to utilize system reports to accelerate learning.

Quick Bites Virtual PD and Webinars Annual Subscription
An annual Quick Bites subscription provides unlimited access to online courses, webinars, on-demand videos and may include up to two targeted virtual professional development sessions per school. Regularly scheduled webinars cover a range of relevant topics. Online Compass Learning certification courses provide opportunities for schools to build and sustain their implementations.

I feel much more confident using Compass Learning® than I did before. It's a lot easier than I expected it to be.

PURPOSE-BUILT PROFESSIONAL DEVELOPMENT
Flexible PD Options for Intervention

FastStart for the Pathblazer® intervention solution includes goal setting, system training, and use of screener & diagnostics.*

The Essentials for intervention ensure successful integration of digital and teacher-led instruction to address the needs of struggling students.

Quick Bites virtual PD and webinars annual subscription includes topics such as:
• Blended Learning with Hybridge
• Flexible Grouping with Hybridge Data
• Authentic Assessments with Hybridge

I can’t begin to count the number of online sessions I have participated in for various products we use in our small school district . . . I am THE person for ALL of our tools . . . Without a doubt, the Hybridge™ course (and the other webinar short-courses this summer) have been the BEST I’ve ever experienced!

I’m very impressed with the Hybridge™ content I have observed this summer . . . I have used the Hybridge™ course and the other webinar short-courses in my classes this summer . . . Without a doubt, the Hybridge™ course has been the BEST I’ve ever experienced!

QuickStart for the Hybridge™ blended learning solution includes goal setting, system setup and training, and basal textbook alignments.*

The Essentials for blended learning ensure successful integration of digital and face-to-face instruction to best meet the needs of students working on or near grade level.

Flexible PD Options for Blended Learning

FastStart for the Hybridge™ blended learning solution includes goal setting, system setup and training, and basal textbook alignments.*

The Essentials for blended learning ensure successful integration of digital and face-to-face instruction to best meet the needs of students working on or near grade level.

PURPOSE-BUILT PROFESSIONAL DEVELOPMENT
Flexible PD Options for High School

FastStart for the high school solution includes goal setting, system setup and training, and resource navigation.*

The Essentials for high school ensure optimal integration of digital components for successful credit recovery, original credit acquisition, and supplemental instruction.

All of my questions on how to set up our credit recovery courses were answered, but I also learned new strategies for managing my classes, motivating students, and some innovative ideas for students to complete their courses outside the school day.

Quick Bites virtual PD and webinars annual subscription includes topics such as:

Quick Bites virtual PD and webinars annual subscription includes topics such as:

- Analyze, Evaluate, and Create with GoQuest™
- Using GoQuest Profiler Data to Differentiate Instruction
- Supporting Project Based Learning with GoQuest

The session was engaging and interactive—and really got me excited about using project based learning in my classroom! I think GoQuest™ will help me get organized and manage all the pieces and parts of PBL more easily.

We Believe

... that effective implementations share the following attributes:

Committed Instructional Leadership
A truly effective implementation requires that leaders of the instructional team commit to providing feedback, observing, coaching, and modeling to build and develop educator capacity in the digitally integrated classroom.

Information in Manageable Chunks
Professional development is more than just a singular event. Successful implementations allow teachers to receive information, reflect on that information, and put it into practice over time to build effective strategies and best practices.

Follow–Through
Commitment to a vision is a hallmark of a school that has successfully integrated digital and teacher-directed instruction. Schools will always use a variety of resources, but those that keep their eye on the ball and their goals in mind are the schools that realize their vision.

We Deliver

Expertise
Our implementation specialists are veteran educators with nearly 600 combined years of teaching and professional development experience.

Strategies That Work
We provide ideas and methodologies you can use with students the very next day.

A Track Record of Excellence
Grade us! We take your evaluations of our work very seriously. Ask to see our reviews.

Our Report Card
93.8% of educators believe that our PD imparts new knowledge they can use in their classrooms right away.

√ √ √
Very informative, spoke on ‘our’ level and was very patient! I learned so much in these 3 hours that I didn't even know existed with Compass Learning®. I feel because I learned that there was so much more out there, I will use it more!

I learned multiple things from this PD. I came into this class not knowing ANYTHING about this program. After this PD I feel confident that I can and will make use of this program.
