

we can see the end of cancer from here.

These people are a new generation of blood cancer patients. They live normal lives, some managing their condition with just a daily pill, thanks to discoveries funded in part by The Leukemia & Lymphoma Society. And these discoveries apply to many different kinds of cancer. In the last 12 years half the cancer therapies approved by the FDA were developed with research supported by LLS. Forget someday. We're making cures happen today. Are you aware of how close we are to many new life-saving breakthroughs? Or how you can help? **Find out at lls.org/xx or call [xxx-xxx-xxxx](tel:xxx-xxx-xxxx).**

someday is today
