Did You Know?

- · The average life of a well system is only 15-20 years.
- · Lack of a safe water supply is regarded as a serious health hazaed.
- The National Ground Water Association recommends routine maintenance to ensure prolonged service.2

Sample A. Sample:

You may know the helpless feeling when there's a sudden pump failure in your car engine, washing machine or swimming pool - simply from everyday use. But as inconvenient as those may be, they pale in comparison to what you may face when your well system stops working.

- · You won't have fresh water for drinking or for cooking meals.
- · You'll be unable to wash your clothes, clean your dishes or even take a bath or shower.
- · You may face thousands of dollars in repairs that are typically not covered by homeowners' insurance.
- · You'll be on your own having to find a reliable contractor and arrange timely repairs.

Normal wear and tear alone can cause a problem that leaves you without fresh water for drinking, cooking and bathing. But here's good news. An affordable, trusted solution is now available for well owners in your area. But here's good news. An affordable, trusted solution is now available for well owners in your area.

Announcing the Well System Protection Program from American Water Resources

This convenient and reasonably-priced program is offered by America's premier provider of homeowner protection programs: American Water Resources — with an A+ rating with the Better Business Bureau, as well as a 97% satisfaction rating among customers from coast to coast.

If you have a problem with your well's submersible or jet pump, pressure tank or well lines, simply call our toll-free hotline 24 hours a day, 365 days a year and we will:

- ✓ Pay up to \$3,500 for covered well repairs.*
- ✓ Arrange for a local, insured contractor to quickly make covered repairs.
- ✓ Offer a one-year warranty on all covered repairs so you can be confident of quality work.
- ✔ Provide unlimited service calls

Your low program cost is just \$14.99° per month. Please call 1-877-513-8502, visit AWRUSA.com/Well, or return the enclosed Program Acceptance Form. Our customer service team will quickly process your enrollment, and answer any questions you may have.

THE WELL SYSTEM PROTECTION PROGRAM

Did You Know?

Why do you need this protection? Your well pump and other well system components are subject to normal wear and tear, which makes them susceptible to sudden failure.

Is it costly to fix these problems?

It can be. And typically, your homeowners insurance will not cover these repairs. That's why the Well System Protection Program provides generous benefits: it pays up to \$3,500 for covered well line and well pump repairs

Are the contractors local?

Only local, insured contractors are dispatched by American Water Resources, and for additional peace of mind we provide a one-year warranty on all covered repairs.

What is the cost for this protection?

You can enroll for Well System protection for the low price of just \$14.99 a month. Additional sales tax may apply in some states. This is a small price to pay for the reassurance of up to \$3,500° of protection from the risks of well system failure. There is a \$50 service fee when a contractor is dispatched for well system repairs.
