

# Winter adventures on Lakeland Islands

Are you dreaming of a relaxing winter holiday? In Raita cottage on a private island in eastern Finland's lakeland, surrounded by undisturbed nature, you soon forget the daily grind. Make snow angels, ride kicksled on snow-covered tracks, walk or ski on the frozen lake, search geocaches, watch for traces of wild animals. You may encounter black grouse beating snow or woodpeckers busy with their wintry chores. Your reward is red cheeks and a happy mind.
