ENHANCING CUSTOMER CUSTOMER EXPERIENCE THOUGH INNOVATIVE TECHNOLOGY
The Modern Shopping Centre

A shopping mall is no longer just a place to go buy something, it's a community and entertainment center. What makes a shopping environment unique and unbeatable is the customer being guaranteed safe, convenient and secure parking.

With the availability ofparking space is among thetop deciding factors in the choice of a shopping location, the parking system lies at the apex of this decision as the first and last impression of the shopping experience.

Welcome to Paytech

Paytech Limited helps you welcome yourcustomers with convenient, reliable and fully integrated top class technology made by the world market leader for parking, access control and revenue collection

Our system allows you to comprehensively manage short-term parkers within your premises right from parking tariff management,entry/exit management to parking ticket payment.

Convenient Parking Media

We offer a wide choice ofparking media ranging from barcodes and magnetic stripe tickets to the ChipCoin technology for short-term parkers and access cards for contract parkers.
You can comprehensivelymanage the permanent/contract parkers such as tenants right from allocation of specific parking usage entitlements, issuance of access cards to user tariff allocation and billing where applicable.

Accurate, Reliable Reports

Flexible reporting tools provide you with reliable analyses of parking products and their statistically significant aspects.This way you can keep track the return on your signifi-cant and worthwhile park-ing management investm-ents.

Automatic Parking Guidance System

This system detects the occupancy of each level and the complete car park, categorized by reserved spaces (contract parkers), non-reserved spaces (short-term parkers), booked spaces(short-term parkers who have pre-booked via internet) and displays the same clearly for all shoppers to easily locate parking.

eTickets

As a 'Thank You' note to your customers, Paytech Parking Management solutions enable you to offer discounts. The eTicket as Promo pass is a non-unique promotion barcode which can be used by different customers for entry and exit up to a promotion limit counter. This can be issued as a discount for a certain amount of purchases or during other promotions ran by the shopping centre.

Accurate, Reliable Reports

Accurate data is important to be in the know of what's going on with your parking. Our systems leverage on flexible reporting tools provide you with reliable analyses of parking products and their statistically significant aspects. This way, you can keep track of the return on your significant and worthwhile parking management investments.
