

# RESEARCH AND OBSERVATIONS

---

## STORAGE

Because of the prominence of theft and vandalism in the community, the garden had no designated area or structures to store tools and supplies.

## IDENTITY

The garden had a name, but no symbol or a logo for the community to visually connect to and be proud of.

## SEATING

One resource the garden did not have were any chairs or stools for gardening. The gardeners would crouch, kneel or sit on the edge of their plot sideways to reach over to the soil.
