

EVERY DOCTOR SHOULD HAVE A LITTLE HEART

Our health care system is broken. Medical decisions are more often based on cost rather than caring. The central goal of medicine – to make and keep patients healthy – has been lost. But not at DuPage Family Medicine. For nearly twenty years, we've taken a patient-oriented approach to health care. We consider not only the body, but the mind and emotions, the individual and their family. If you're ready for health care that puts you first, you're ready for DuPage Family Medicine. **Call us today 630-778-4700.**

WHAT'S YOUR REWARD FOR VISITING THE DOCTOR?

We all have a fear of going to the doctor. What will they find? What if it's something bad? We know how you feel about doctors visits; it's natural to have some apprehension. But more often than not, our patients have nothing more wrong with them that a better diet, a bit more exercise and a healthier lifestyle wouldn't cure. The most important thing is that you get a checkup on a regular basis. When you're ready to live a healthier life, you're ready for DuPage Family Health. **Call us today 630-778-4700.**

EVERYONE HAS AN INCENTIVE TO LOSE WEIGHT

Low-carb. No-fat. All-protein. Whether it's the impending bikini season, a class reunion or a new love in your life, losing weight is just one step to becoming a healthier you. But making smart choices about how to lose weight is just as important as the initial decision to get started. That's why it's important to first talk about diet, exercise and lifestyle changes with your doctor. When you're ready for a new look, you're ready for DuPage Family Medicine. **Call us today 630-778-4700.**
