

Advertising is meant to make you see companies through **rose-tinted spectacles**. Which means choosing a premium financier can be a grey area. But there is an alternative. A **black sheep** with whiter than white credentials, offering you a **green light** to more business, happier clients and an easier life.

Wouldn't you rather be **amber with happiness?**

Amber Credit has been shortlisted 'Premium Financier of 2002' by Insurance Times and is backed by the strength of Skipton Building Society.
