

Animal.

Shock, horror, call the cops – you can't say that
about disabled people!

Trust us. Being called an animal is the least of our worries.

Being treated like one is what really hurts. Who cares about
names, when you're stopped from using public transport,
going into shops, getting a job?

With so much discrimination against disabled people still
around, it makes you wonder:

Who are the animals?

IT'S TIME TO GET EQUAL.

www.scope.org.uk

scope

Equality for disabled people.
