

'Males' in Solidworks

'Males' model.

Nightclub Toilet Door

The demand for contemporary, up-to-date accessories within nightclubs is growing at an astonishing rate. Features such as the bar, the cloakroom and the bathroom are undertaking serious re-design in order to keep up with this new trend.

Material:

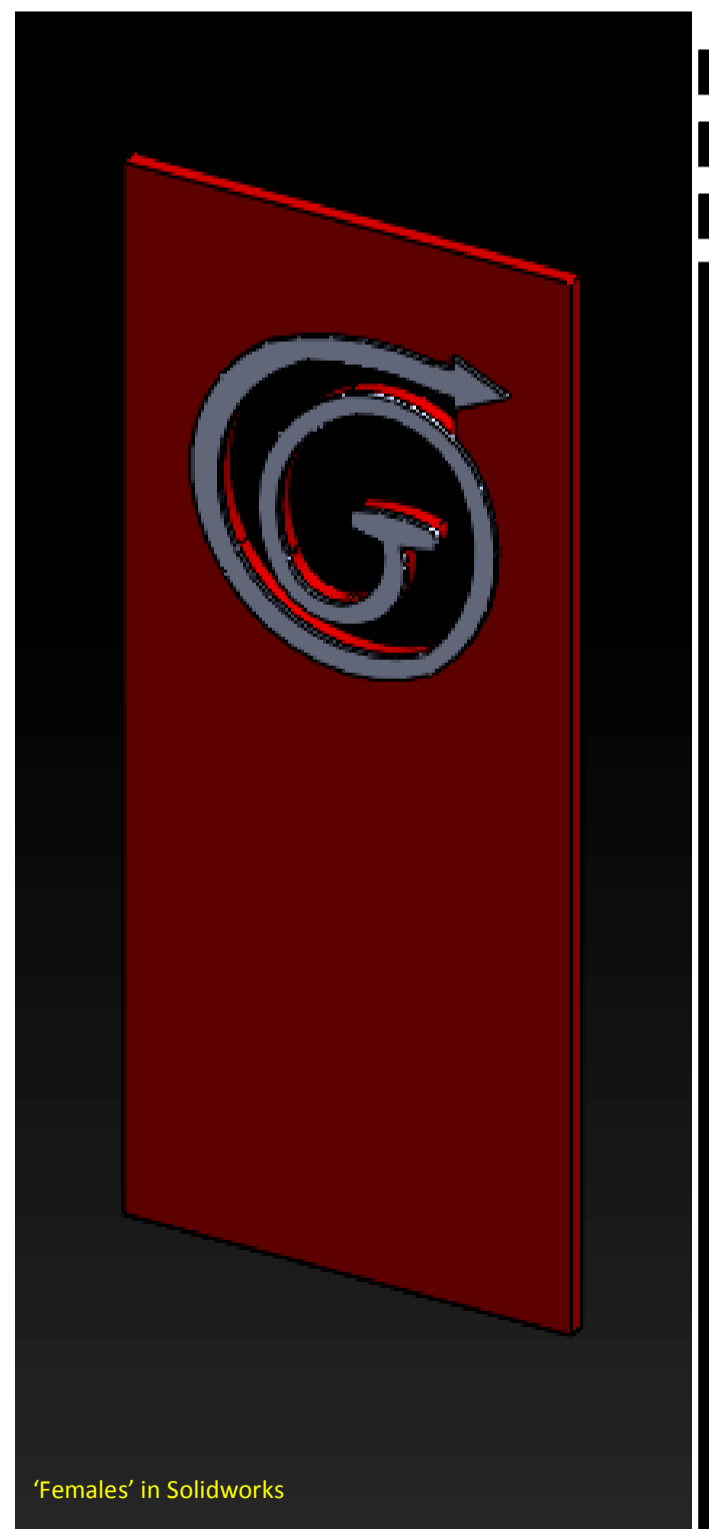

Door: Ash

Signage: Stainless steel

Window: Glass

'Dirty effect'

This effect compliments the context of the product, allowing for easy maintenance whilst also clearly associating the 'grubby-like' surface with the stereotypical appearance of a nightclub toilet scene.
