## YOUR SUCCESS DEPENDS ON ACCESS. WHY TRUST IT TO ANYONE BUT VERIZON WIRELESS?

Dear Financial Professional,

In today's financial industry, budgets are tight and clients are more demanding. That's why you and your team need access to vital information both in and out of the office. Luckily, there's Verizon Wireless and BlackBerry. Call today and save up to \$100 per unit with a new two-year line term.

**Nothing keeps you connected like BlackBerry and Verizon Wireless.** Whether it's communicating with clients and colleagues, or keeping up-to-date with important financial data and market conditions, BlackBerry offers a fast, secure and dependable way to gather information and communicate while you're out of the office. Combine that with nationwide service from Verizon Wireless and stay connected better than ever.

**Wireless features you can't afford to go without.** The ability to check e-mail, surf the Web, access your calendar and address book and more makes BlackBerry a must-have. Plus, you can sync your e-mail, calendar and address book wirelessly. And, with third-party software solutions designed specifically for financial needs, you can access, organize, track and analyze information you need instantly while on the go. Best of all, you can use BlackBerry as a phone to connect on America's Most Reliable Wireless Network.

**Some investments pay off better than others.** In an industry where every second counts, Verizon Wireless' high-speed data network makes a big difference. Implementation into your organization will more than likely increase client service, productivity and responsiveness — generating a positive return on your investment.

**Put BlackBerry to work in your organization and save up to \$100 per unit.** Call your Verizon Wireless BlackBerry Service Specialist today at 1-888-211-3258 for BlackBerry plan information, and to find out about additional discounts your business may be eligible for.

Sincerely,

*Shakey Kessian*
