

# Logo Guidelines

Information about the Strands logo - the correct and incorrect use of the strands logo, colors, and typefaces.

# General Guidelines:

Logo Elements | Clear Space | Color Palettes | Color Background | Gray Scale | Correct Use | Incorrect Use

## Strands Logo Elements

The Strands logo must remain as originally drawn and proportioned and cannot be modified. The logo may not be deconstructed; for instance, the typeface "STRANDS" may not appear without the other element (weave) that make up the strands logo.

"STRANDS" - The word/typeface "STRANDS" is one of the graphic element in the logo strands.

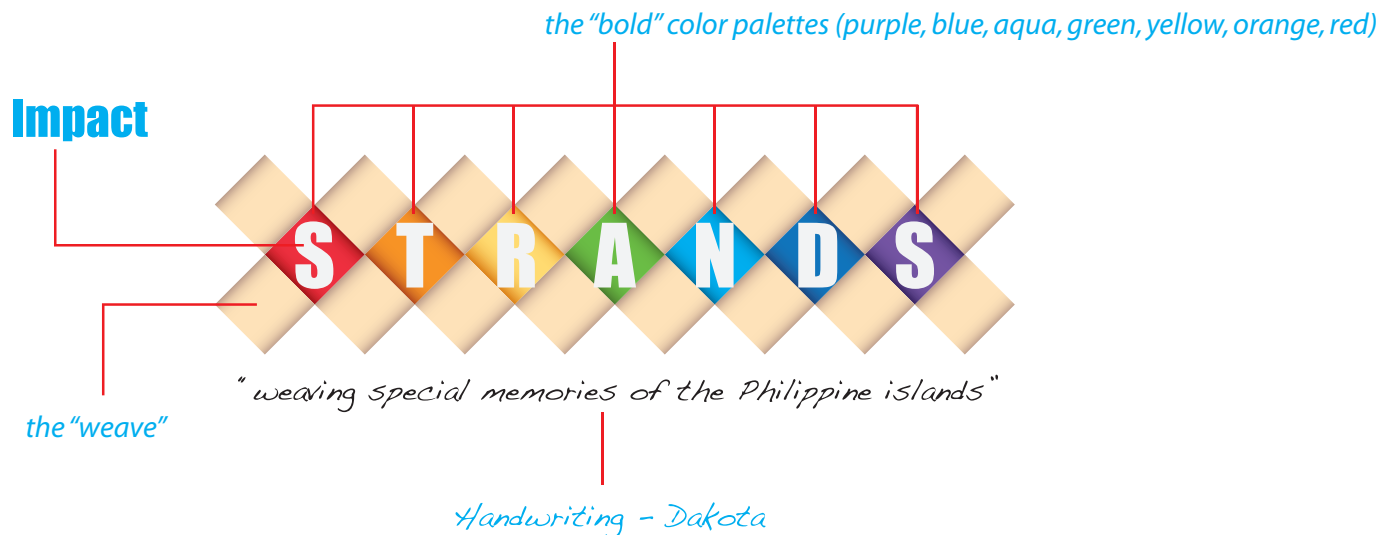

Merriam-webster dictionary define strand in noun as - fibers or filaments twisted, plaited, or laid parallel to form a unit for further twisting or plaiting into yarn, thread, rope, or cordage.

the "weave" - Is the second graphic element in the logo strands.

Merriam-webster dictionary define weave in transitive verb as - to interlace especially to form a texture, fabric, or design.

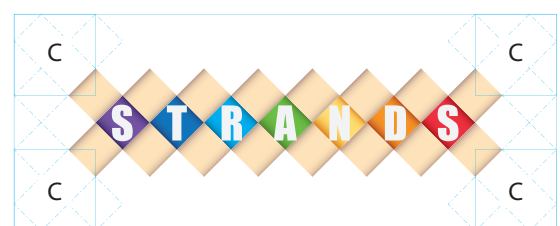

the "bold" color palettes - Is the third graphic element in the logo strands.

These are continuous spectrum of colours and are commonly cited and remembered sequence in Newton's sevenfold red, orange, yellow, green, blue, indigo and violet (popularly memorized by mnemonics like Roy G. Biv).

## Clear Space

The Strands logo requires a clear space from top, bottom and both sides (L & R) from with or without the tag line.

# Color Palettes

Strands provides two color palettes, the bold palette and the professional palette.

Strands takes the bold palettes as the primary set of colors while professional palettes are use for secondary colors.

The Bold Palettes - The bold palette offers lively, vibrant, and energetic colors.

The Professional Palettes - The professional palette offers a more subtle approach with colors that are elegant, formal, and calm.

Strands is also very playful in using the different variations of logos in strands color palette. The reason being is, we want to be more flexible in using the strands logo in which ever matches to the use and the purpose.

# Color background

Strands logo is very friendly when it comes to color background. There are no restrictions on what color background to use in a full color logo/bold palette logo as long as it matches from the bold palettes and its readable enough for the viewer.

However, the tag line should be in black when its background is warm and white color when its background is cool.

\*Use black color on the Tagline for warm/white background.

Warm

\*Use white color on the Tagline for cool/dark background.

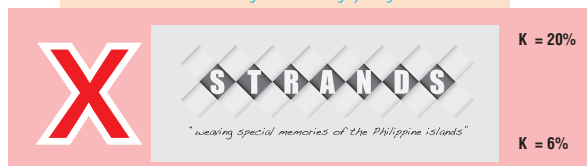

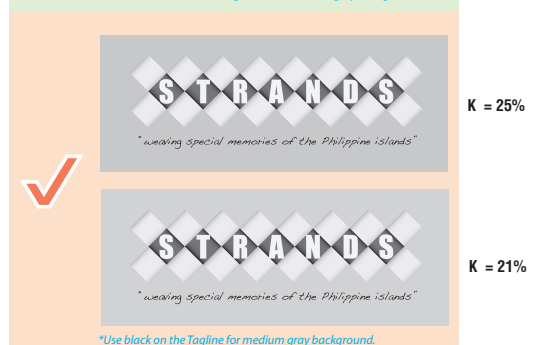

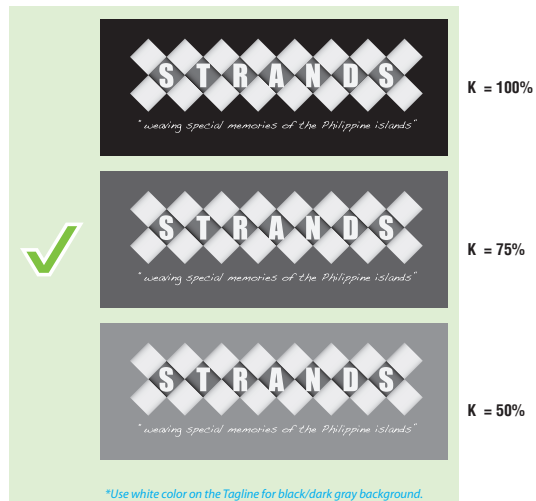

Cool

# Grayscale/B&W Color

Never use a 6% to 20% black (medium gray) as background for a grayscale or black and white logo. 21% up to 100% of black is and 5% down to 0% black (white) is acceptable.

Also, the tag line should be in black when its background is in light gray or white color and white color when its background is in dark gray or black .

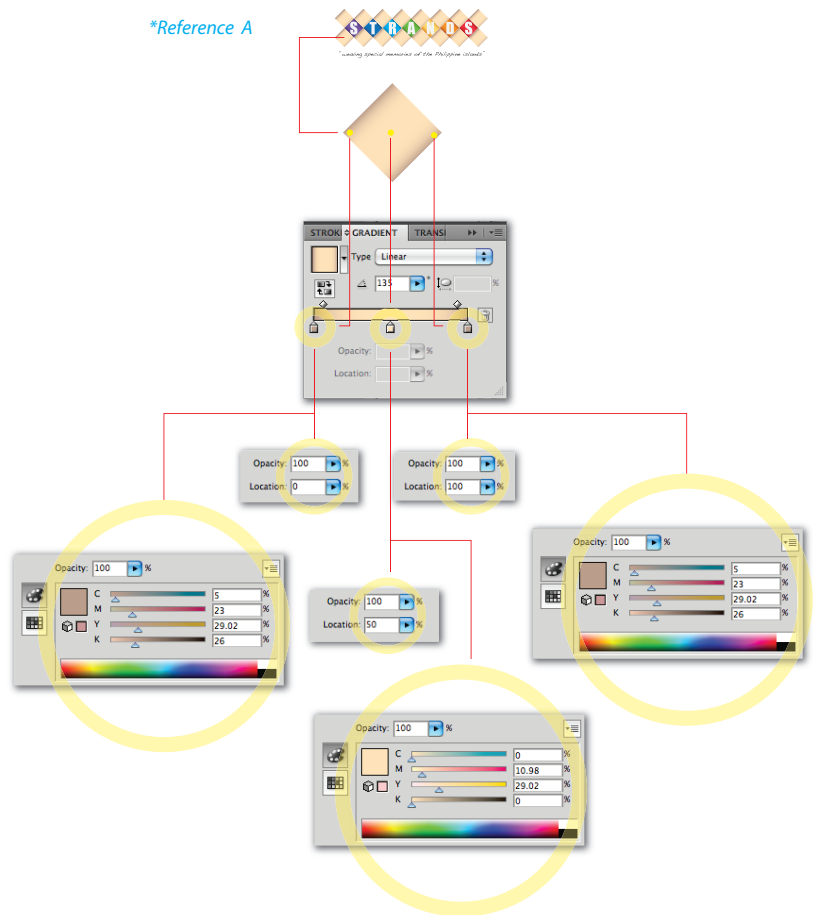

# Gradient Tonal Values

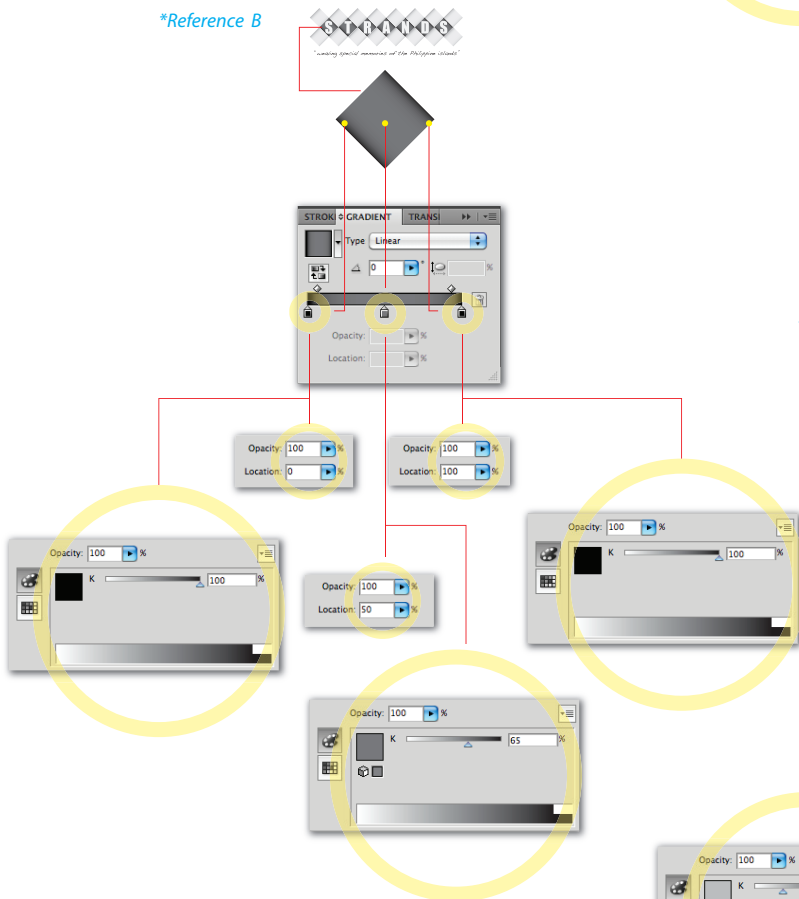

You may refer to *\*reference A* when using a full-color gradient tonal values.

*\*reference A* and *B* when using a one-color gradient tonal values.

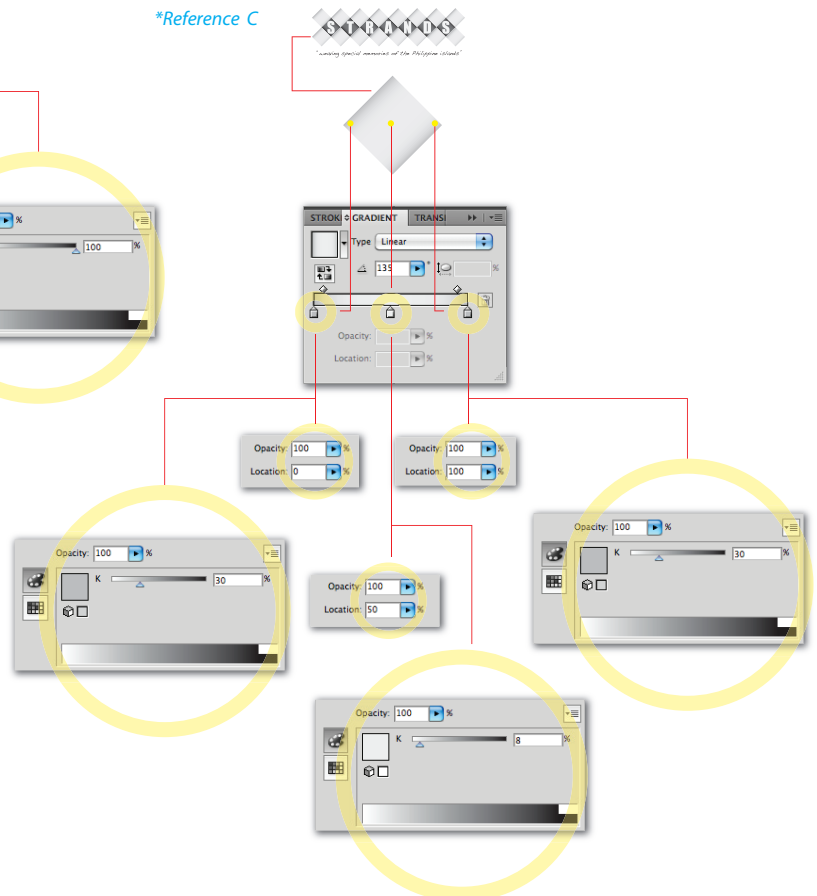

*\*Reference A*

*\*Reference B*

*\*Reference C*

# Correct and Incorrect Logo Usage
