

# DESIGN PROCESS | FLOOR PLAN

REFLECTED CEILING PLAN

THE CONCEPTUAL DEVELOPMENT OF THE FLOOR PLAN AND REFLECTED CEILING PLAN IS DERIVED FROM THE CREATION OF A DRAWING LIBRARY OF SHAPES. THE SHAPES ARE CONSTRUCTED FROM A PRELIMINARY SHAPE THAT IS THEN DUPLICATED, ROTATED, AND SUPER-IMPOSED, WHICH BECOMES MORE INTRICATE AS THE PROCESS INCREASES. ONCE THE DESIRED SHAPE IS REACHED, THE LINES USED IN THE PLANS ARE SELECTED AND PLACED ACCORDINGLY.
