

AHOY!

In Charleston, SC, the salty sea breeze blows in through historic wrought iron gates to remind us of the sparkling harbor in our backyard.

As a tribute to the hundreds of coastal communities across the country, the Southern Gates® Harbor Series celebrates sailors, swimmers, and sun soakers with jewelry inspired by timeless nautical elements.

We know you love the sea breeze as much as we do, so this sterling silver series is protected from the elements with a rhodium finish.

Like all pieces in the Southern Gates® Collection, we recommend storing your jewelry in an airtight pouch or bag to keep your pieces shiny and clean for many more voyages to come.
