

THE IMPORTANCE OF HEAT-RELATED PPE

Prevent Heat-related Illness

Heat stress can lead to exhaustion, heat stroke and serious health issues.

Boost Performance and Safety

Prioritizing cooling can help workers stay safe, cool, focused and more productive.

Strengthen OSHA Compliance

OSHA and other regulations require employers to provide a safe work environment.

Empower Your Team

Heat-related PPE helps employees feel safe, valued and equipped to perform.

Extreme Heat PPE Premium Credit Program

*Beat the heat.
Protect your workforce.*

WHAT WE OFFER

NYSIF is offering a one-time premium credit to workers' compensation policyholders for the purchase of heat-related, proper-fitting, essential Personal Protective Equipment (PPE) and other safety gear.

This credit is tailored to provide qualified businesses that fall within the required industries listed below, where workers face elevated risk from exposure to extreme temperatures.

REQUIREMENTS

To qualify for NYSIF's Extreme Heat PPE Premium Credit, you must:

Fall within manufacturing, roofing, warehousing, electrical, plumbing, insulation, wallboard installation, carpentry, landscaping, firefighting, restaurant or farming industries

Have an online account with NYSIF

Have 10 or fewer employees

Purchased PPE starting May 15, 2025, or later

BENEFITS

Receive up to a 10% credit of annual premium on the purchase of heat-related PPE, with a maximum reimbursement of \$1,000

Offset expenses for the purchase of heat-protective gear and implementing safety solutions that reduce the risk of heat-related illness

ELIGIBLE EXPENSES

Fans & Ventilation Systems

Improve air circulation and reduce indoor heat stress

Cooling Vests

Worn over clothing to lower body temperature

Ventilated Hard Hats

Hard hats with built-in vents or cooling pads to reduce head heat

UV-Resistant Safety Glasses

Protect employees' eyes from sun glare and UV rays

And more!

HELP YOUR EMPLOYEES FEEL SAFE AND PROTECTED
