

# Integrated into Sole

## Features

1. Chassis
2. Removable External tongue.
3. Two separate tongues for different uses (park/pipe vs. downhill)
4. Pull Rings/Strap tightening system vs. more expensive BOA system.

## Benefits

1. External tongue helps reduce pressure points.
2. Customizable in color/graphics and function with the multiple tongue options.
3. Easy to tighten with gloves on !!!
4. More efficient and effective tightening since the straps go under the foot and behind the legs.
5. Product differentiation in appearance and function.
