

NEXT GENERATION EXPERIENCE

QUANTUM MARK II SNARE DRUMS

The **All New Quantum Mark II Snare Drum** seamlessly combines lightweight design, versatile functionality, and user-friendly features. Available in Classic and Agility models, this drum, with its six-ply all-maple shell, ensures impressive projection and a next-generation experience.

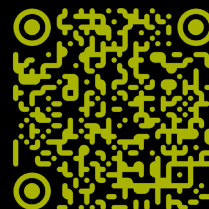

Individual snare strands can be fine-tuned with a standard drum key and easily removed or replaced with alternate strand materials.

Removable aluminum snare module allows the entire snare module to be detached for fine tuning or quick bottom head changes.

An all-maple shell with maple reinforcing rings provides projection and warmth with the added benefit of reduced weight.
