

Let the Sun Power Your Home!

Switch to **Solar**, Save **Big**.

Solar energy is better and more accessible than ever. Why not get set up with a solar energy solution today? Kennihan Plumbing & Heating, Inc. employs registered electricians who can handle your solar installation effectively so you can watch your energy bills go down in real time. If you're looking to get your solar system set up, you can trust us with the job.

We install ground-mount solar panels to ensure they get the most sunlight and, by default, the most energy for your home.
