

design & engineering project

project goal: to modify the external aesthetic of the Littmann line of stethoscopes

solution: a mechanical system that modifies the physical surface of the stethoscopes - from glossy to satin

outcome: preliminary sketch to successful prototype

As of 2026, a patent is in place for our team's mechanical system. The satin finish line of Littmann stethoscopes are on the market. **Check it out!** <https://www.littmann.com/en-us/home/products/satin-finish/>
