

# who i am

 trained as an engineer, passionate about design

 i seek the opportunity to contribute both thoughtfully & creatively

 kindness, authenticity, & connection – what drive my craft & inspire me to create

as a little girl, I longed to work in what I thought of as “girl world” — fashion, beauty, & design. to this day, i greatly desire to contribute to a space where purpose & storytelling meet, where femininity is expressed through form & detail.

# my roots

# my goal

i use fashion & art as tools for expression & identity. my goal as a designer is to create pieces that reflect the confidence & inner beauty of the wearer.
