A graphic design and brand specialist who has for the past 15+ years have learned, unlearned and absorbed new ideas & thoughts. Have had the privilege to work with some great people who have nurtured me to value design that are not only visually stimulating but audience friendly. Have had got my hands “dirty (or one may say colorful)” in every step of this creation and today I can conservatively claim to have the vision for creating commercially viable designs.

Open to ideas

Inspiration comes from all sources. From the things we read, watch and hear; from the pooling of ideas; the debate and the contradictions. Most of all, creativity comes from being open minded, and that, in a nutshell, is what creativity is all about. Openness is right at the heart of the way I work.

"Optimism is essential to achievement and it is also the  
foundation of courage and true progress." - Dr. Henry D. Thoreau

We at Dabur Pharma are excited by an age of change, optimism and growth.  
Being the first Indian company to launch anti-cancer products, we have opened  
new possibilities in the field of Oncology.

From basic research to bulk activities, focused formulation to generic, custom  
chemical synthesis, diagnostics and biotechnology.

Our focus is to encourage efforts to discover their true strengths and translate  
challenging life experiences into positive achievements.

**SPAIN IS CALLING**

Spain is one of Europe's most diverse countries, historically, culturally, gastronomically and geographically. While some people prefer to go skiing in the Winter months, others prefer to sunbathe on the coast. Not many countries can offer both options during the same month, but Spain can.

Spain is littered with hundreds of glittering beaches; flamenco dancers swirl in flounces of colour; and bullfighters strut their stuff in the bullrings. Spain is truly a heaven on earth for all those who want to have great time!

If that was not all – North of Spain also has rolling, green hills of Ireland and the south gives you a taste of Moroccan landscapes and architecture. Its tremendous history is reflected in its prehistoric cave paintings, Moorish palaces, crumbling castles, Roman ruins, Gothic and Renaissance cathedrals as well as some very distinctive modern architecture

Are you doing your bit to experience Spain - a country which has everything special about it?

Aulaab!

Heartiest congratulations for achieving the coveted MDRT title for the year 2013. It is through sheer hard work and relentless dedication that you have overcome all the challenges and reset newer benchmarks of success. It is therefore time to celebrate this victory of yours.

We take the privilege of inviting you to the Hyderabad MDRT Meet -2014. Your commitment and passion have entitled you with this honour and you truly deserve this appreciation.

The name Hyderabad means Hyder's abode or Lion City and is also endearingly called the City of Pearls. This historic city offers a wide variety of attractions ranging from heritage monuments, lakes and parks, gardens and resorts to museums. It is home to the delectable Hyderabadi cuisine and boasts of numerous traditional bazaars which provides a delightful shopping experience. To the traveller, Hyderabad offers a fascinating panorama of the past, with a richly mixed cultural and historical tradition spanning over 400 colourful years.

So pack your bags and get ready for an enthralling and royal Nizami experience!

Regards,

### Implementation Helps

an Emergency Care Service Provider

Stay Agile and Drive Growth

AgreeYa helped an emergency care service provider achieve a seamless communication and facilitate an unfalling-collaboration across the organization, in a secure environment.

"When we first started talking about better collaboration and communication within the organization, we dreaded fat bill and an exhausting process that would go into finding a solution. Solutions that AgreeYa offered to us were quick, affordable, and easy to operate, which also enabled a secure environment for our communication".

Senior Manager,  
North Valley Emergency Specialists.

### Challenge

The healthcare service provider had outgrown its current IT infrastructure and wanted a cost-effective, flexible platform to support its expansion plans. They needed to undergo major change in business model, to make way for cloud services. The client has a highly mobile team that caters to emergency medical scenarios, making it critical to provide them with a quick and smooth access to emails and medical files, from any virtual location. Consequently, they were in search for a premeditated partner with a technological solution, to facilitate better collaboration & communication across the organization, in a secured environment.

The client was ready to break free from On-Premise and adopt cloud-based services. But the biggest challenge was — will their staff be able to use the technology?

### Background

Client is a healthcare service provider with a democratically managed group of emergency physicians. Their solitary goal is to provide an unfalling emergency medical help; consequently, they endeavored to provide emergency medical care — immediately and invariably.

### Solution

The client chose AgreeYa as a partner to deal with the challenges faced during expansion plans. The scope of work largely included — an analysis of their challenges, suggesting the desired solution, a creation of a roadmap to the solution, implementation of the solution offered, and training the staff on how-to-use the technology.

The project drew heavily on AgreeYa's portfolio of comprehensive SharePoint solutions, to achieve a high quality of emergency healthcare services. Key solutions offered by AgreeYa as a part of the engagement were:

- ▶ Experts analyzed the existing content and environment, to suggest the most relevant solutions.
- ▶ While working closely with the client, our experts suggested solutions and developed the implementation roadmap.
- ▶ AgreeYa's team provided them with **Microsoft Office 365** as an effective solution to their challenges. It enabled a — seamless, on-the-go document sharing, email and instant messenger access to manage meetings & conference calls. This also helped them overcome the shortcomings related to their previous communication processes, while realizing maximum benefits of cloud.
- ▶ A system was built through **SharePoint Online technology** which shows various web parts on one site. In simpler expression, it collaborates content from various sources, providing all the information to the users on one page. A reliable system, this can be accessed from anywhere by the employees. Also, this system is built with related branding, appropriate document libraries, and permissions.
- ▶ Our experts created user accounts for the staff in the new Office365 domain. Which means that employees are now working on all top-of-the-line set of productivity tools, useful for their business.
- ▶ Federated Active Directory Federation Devices.
- ▶ Our experts provided training to staff members, on how to use SharePoint Online and perform common tasks, install & configure Exchange Online, and install Skype for Business.
- ▶ Provided Administrator/Power user training to the client's IT Team, on how to use Office 365 admin panel.

### Benefits

Client's embracing of our solution proved to be a success. Communication is seamless and foolproof, which has brought them closer to their organizational goal.

- ▶ Switching gears to the cloud-first strategy, client was able to keep the staff connected with videoconferencing, document collaboration, and email.
- ▶ Client plans to use Skype for Business videoconferencing and instant messaging to further improve collaboration department.
- ▶ Through **Microsoft Office 365**, they are now able to provide everyone in the business stable, with a reliable access to - files, email, and modern collaboration tools from any device, anywhere, and anytime.
- ▶ The staff can now archive emails and documents, stay connected, and be more productive.
- ▶ **Office 365 — a cloud-hosted solution** — minimized the burden on the client's IT team. The amount of time they spent in maintaining and keeping the systems up and running, is now spent on other productive tasks.

AGREEYA HELPED AN EMERGENCY CARE ENTERPRISE ACHIEVE AGILITY, BY ENABLING A QUICK ACCESS TO INFORMATION AND A SEAMLESS COMMUNICATION IN A SECURE ENVIRONMENT

“When we first started talking about better collaboration and communication within the organization, we dreaded fat bill and an exhaustive process that would go into finding a solution.

Solutions that AgreeYa offered to us were quick, affordable, and easy to operate. They built us a secure environment for communication”

-Client

Background

Client is a healthcare service provider with a democratically managed group of emergency physicians. Their solitary goal is to provide an unfailing emergency medical help. They endeavored to provide emergency medical care - immediately and invariably.

Challenges

The client has a highly mobile medical team that caters to emergency medical cases. This makes it imperative for them

to get a quick and smooth access to all the critical information from a virtual location through wireless methods and collaborate with the team members across the organization, unfailingly. Their team was dominantly relying on old and ineffective methods of communication. The medical care provider soon realized that their current methods were not working, as they were time-consuming, leading to security threats, functional inefficiencies, costly operational expenses, and making work difficult to monitor.

The client had outgrown its current infrastructure and needed a cost-effective and flexible platform to support their current system and future expansion plans. The client agreed that the need was to undergo a major transformation, enabling a digital network to make way for cloud technology. But, while the client was ready to break free from its On-Premise technology and adopt the cloud-based services, their biggest challenge was - will the staff be able to use this new technology?

Consequently, they were in search of a pre-meditated partner to facilitate better collaboration and communication across the organization, through an impactful, easy-to-use, robust, and yet cost-effective technological solution.

Solutions

After examining the scenario, our experts decided to implement Office 365 to ensure a smooth communication infrastructure. Our execution process included an analysis of their challenges, developing the desired solution, creating the solution roadmap, end-to-end solution implementation, and workforce training on the technology. As a result, a system was built through SharePoint Online technology, which collaborates content from various sources, providing all the information to the users on a single accessible system. It contains appropriate branding, document libraries, and permissions, which can be accessed from anywhere by the employees. It is a reliable and highly secure system, built with an ease of use for non-technical users.

Another part of the solution is Microsoft Office 365, which enables a seamless, on-the-go document sharing, email and instant messenger access to manage meetings and conference calls. This top-of-the-line set of productivity tools is highly impactful for their business, which has helped them overcome the shortcomings related to their previous communication processes, while realizing maximum benefits of the cloud.

As a part of the custom solution, our experts also extended post-implementation support to the client by providing in-person training to the pilot users. This prepared the team to begin work on the AgreeYa laid system sooner than the client expected.

www.agreeya.com

Key Benefits

The project drew heavily on AgreeYa's portfolio of comprehensive SharePoint solutions, delivering these key benefits:

- Switching gear to the cloud-first strategy, the client was able to keep the staff connected with video conferencing, document collaboration, and email.
Built a SharePoint Online based system that allows the user seamless access to information (such as: document libraries and permissions) from one location.
Client plans to use Skype for Business video conferencing and instant messaging to further improve collaboration department.
Simple, reliable, and secure wireless system that reduced the time and cost involved in the process.
Through Microsoft Office 365, staff gets a quick access to files, email, and other modern collaboration tools from any device, which keeps the whole workforce connected all the time.
Office 365 - a cloud-hosted solution -minimized the burden on the client's IT team. The amount of time they spent in maintaining and keeping the systems up and running, is now spent on other productive tasks.
Provided Administrator/Power user training to the client's IT Team on how to use the Office 365 admin panel.

Implications of non-compliance is financial penalties, imposition of sanctions, imprisonment, and damage to corporate reputation. With stricter economic sanctions and enforcements, organizations regulated by FinCEN, need to ensure their compliance programs are designed to minimize risk. Key measures to be taken to avoid penalties are good governance, robust compliance

Aadab,

Let's rejoice as we celebrate the success that you have achieved over the months gone by. It is your commitment, dedication, passion and sheer hard work which has continuously enabled us to raise the bar and set new benchmarks.

Your enduring success has made us proud and on behalf of HDFC Life and the Third Party Products Team, it is my privilege to invite you to the MD GH Club Meet at Hyderabad, the city of smiles, of lights and of a thousand faces.

Endearingly called the Pearl City, Hyderabad offers a variety of attractions ranging from Heritage monuments, Lakes and Parks, Gardens and Resorts, Museums, a variety of delectable cuisines and a delightful shopping experience. To the traveller, Hyderabad offers a fascinating panorama of the past, with a richly mixed cultural and historical tradition spanning over 400 colorful years.

So pack your bags and get ready for an enthralling Nizami experience!

Looking forward to see you there soon.

Regards,

Roopa Natrajan

WELCOME TO KENYA

Aadaab!

Heartiest congratulations for achieving the coveted MDRT title for the year 2013. It is through sheer hard work and relentless dedication that you have overcome all the challenges and reset newer benchmarks of success. It is therefore time to celebrate this victory of yours.

We take the privilege of inviting you to the Hyderabad MDRT Meet - 2014. Your commitment and passion have entitled you with this honour and you truly deserve this appreciation.

The name Hyderabad means Hyder's abode or Lion City and is also endearingly called the City of Pearls. This historic city offers a wide variety of attractions ranging from heritage monuments, lakes and parks, gardens and resorts to museums. It is home to the delectable Hyderabadi cuisine and boasts of numerous traditional bazaars which provides a delightful shopping experience. To the traveller, Hyderabad offers a fascinating panorama of the past, with a richly mixed cultural and historical tradition spanning over 400 colourful years.

So pack your bags and get ready for an enthralling and royal Nizami experience!

Regards,

A.S.
