

80% of data  
is unstructured in  
the form of blogs,  
news articles,  
and more.

Organisations now deal with data in diverse formats, from a multitude of sources. IBM Watson Explorer Community Edition is a cognitive analytical tool designed to help you mine and explore all your unstructured data.

The solution employs powerful text analytics and machine learning to guide you through vast amounts of unstructured or semi-structured information and deliver unique insights.

Experience how IBM Watson Explorer Community Edition can help you dig deeper into all kinds of data.
