

Embracing the Cognitive Enterprise Roundtable

Your Executive Invite

12 September, 2019

08:30 AM

The Saxon Hotel,
Johannesburg

On the heels of digital trends that are starting to mature, the next wave beyond digitisation has begun. The rise of new and exponential technologies – including AI, Digital Transformation and Cloud have not all delivered the required results in South Africa and business transformation, revenue growth and cost reduction has not always been achieved.

IBM services will have a unique opportunity on peer to peer level to present and discuss why the pace has not picked up.

Join us at our exclusive Embracing the Cognitive Enterprise roundtable on the 12th of September at The Saxon Hotel, Johannesburg. We will discuss how to transform your business into a Cognitive Enterprise. Let us exchange new insights and discuss how we collaborate with our clients, bringing together business insight, advanced research and technology to give you a distinct advantage in today's rapidly changing environment.

Have your questions ready and we will share our vision towards the Cognitive Enterprise.

Please click on the icon below to register your seat.

We look forward to hosting you
Your Opinion. Your Time. Our Expertise.
