

THANK YOU

We are glad that you could be a part of the IBM Driven by Data Progression Workshop. As you will recall, the event focused on how organisations can meet the demands of modern, data-intensive apps with next-generation infrastructure solutions from IBM.

We hope you could explore the IBM servers and storage portfolio that's built to deliver high performance, scalability and mission-critical reliability. We look forward to your continued participation.

In the spotlight

The sessions demonstrated how organisations can:

Accelerate digital transformation using PowerAI on IBM Power servers and IBM Flash Storage

Build a strong foundation to transform the digital experience with IBM Cloud Private

Maximise digital insights by evolving the data centre with IBM Cloud Private for Data

Equip your enterprise for the data era with IBM infrastructure solutions
