The banking sector in Tanzania is embracing technology:

What is the way forward as the industry sets out on the path of digital transformation?

How can banks reinvent themselves to meet changing customer expectations and drive new revenue opportunities?

Invite your colleague the Head of Business concerned with the above to register along with you to attend this session. At the Digital Transformation Workshop, you will discover how IBM can partner with you in this digital transformation journey with solutions that integrate Design Thinking, deep industry expertise and cognitive capabilities.

The sessions will cover topics such as:

The Future of Banking

Digital Security

Digital Experience

Digital Insights

Digital Infrastructure
